 718-290-7992

Experience

www.jncampbell.com

August 2015

Designed, and developed a simple portfolio built with Laravel, jQuery, HTML5, CSS3 and a little bit of Bootstrap.

Nightclub Application

(In-Development)

September 2014 - Current

Developed a web application to help friends coordinate their visits to nightclubs. Built the entire site myself using OO PHP, Laravel, jQuery, AJAX, MySQL, HTML5 and CSS3. Designed and developed a mobile-responsive interface and a custom CMS to handle the site's CRUD functions. I also made sure security concerns like CSRF, XSS and SQL injection were addressed using current standards.

Fresh-Kix eBay Store

2012-2014

* Included to note my activities after graduation

Set up an eBay store to sell sneakers to the sneakerhead market. Earned \$105,320 in sales and increased gross margins from 11.43% to 27.33% in year 2013. Maintained 100% customer satisfaction feedback score and achieved Top-Rated Seller status.

Education

Baruch College

Class of 2013

BBA in Entrepreneurship and Management
Programming-based electives in C++, MySQL and web development
